TRAK 2^{OP}

Cal-Draulics

Cal-Draulics

- Small shop
 - Requires machines in a different capacity than a large shop
- Emphasis on lean manufacturing
- Most products are milled

Machining Center Support

- For small lots (35-100)
- Sets up cells in close proximity to maximize production
- CAM Works compatible
- Maximize profits

CalDraulics' 2^{OP}

- Machine up and running in 1 day
- Trainees able to use it
- Bought an additional 2^{OP} 3 months later, and a third one this year

Benefits of the 2^{OP}

- Run at a comfortable level to ensure 100% quality & 100% on time
- Maximize profits without reducing quality of the product
- Fits into workflow
