TOOLS

**TRAK 2<sup>OP</sup>**  
**DAMARK**

# DAMARK

- Family-owned shop
- Focus on lean manufacturing
- Needed solution that fit into existing work cells that wasn't cost-prohibitive

# Lean Manufacturing

- Keep work-in-progress machining levels under control
- Complete first and second operations simultaneously
- Frees up VMCs for higher level, more complex work
- Fits in pre-existing work cells

# DAMARK's 2<sup>OP</sup>

- Considerably less expensive than a new VMC, mill or lathe
- Moved 15 times in 6 months to create temporary work cells
- Able to use lower skilled labor

# Benefits of the 2<sup>OP</sup>

- Cost-efficient
- Increased quality
- Reduced part handling
- Seamless integration into existing processes
