

**TRAK** MACHINE  
TOOLS

**TRAK 2<sup>OP</sup>**

**East Branch Manufacturing**

# East Branch Manufacturing

- Relatively small workforce compared to machine shop size
  - Operators expected to run multiple machines
- Needed portable solution to maximize operator time

# Process Flexibility

- Shrinking lot sizes
- Growing need to expand customer base
- Increase in miscellaneous job shop work, decrease in repeating contract work

# EBE's 2<sup>OP</sup>

- Purchased in 2013
- Parts that aren't complex but require a second time-consuming setup
- Complements live tool lathes and VMCs

# Benefits of the 2<sup>OP</sup>

- 5 minute deployment
- Can easily interrupt a longer run for a hot job
- Free machining time
